The purpose of the PPP review is to:

- Coordination with development partners.
A collaborative process of review will be undertaken:

- In partnership with government, donors and civil society;
- Involving meetings with government counterparts and interlocutors, bilateral agencies, chief secretaries, civil society representatives and UN agencies;
- Supported by PBSO;
- Over January and February;
- Will be contacting all of you for meetings very soon.

- Meet every six months or as required
